Mark out the dates you do not want to play. In doing so, keep in mind that if you mark out too many, we will not be able to complete the schedule. Also, remember that rainouts occur so we will need some open dates to re-schedule rainouts. Dates left open are subject to having games scheduled on them and you will be expected to field a team on those dates. being in a league means that not only does your team expect to play, but the other teams expect to play also. The welfare of your opponent is as important as your welfare. ***Conflict Sheet due April 15.***
